Skills

Programming Languages: Java (Core Java), C
Backend & Frameworks: Spring Boot, JDBC, JSP, Servlets, MVC Architecture
Frontend Technologies: React.js, JavaScript, HTML, CSS, JSP
Databases & Tools: MySQL, SQL, Git, GitHub, Eclipse, VS Code
Core Concepts: Data Structures & Algorithms (Arrays, Strings, Stacks, Queues), OOP, Analysis of Algorithms, CRUD Operations

Projects

Hotplate – Food Delivery Website Apr 2026 – Aug 2026

Technologies: Java, React.js, JSP, Servlets, JDBC, HTML, CSS, JavaScript, MySQL, Apache Tomcat, Maven

- Developed a food delivery platform with Customer and Admin modules.
- Implemented login, restaurant, menu, cart, order, and payment management.
- Used MVC architecture, CRUD operations, JDBC, and session management.
- Integrated MySQL for application data management.
- Deployed the application using Apache Tomcat and Maven.

Pharmacy Drug Management System Nov 2025 – Feb 2026

Technologies: Java, JSP, Servlets, JDBC, HTML, CSS, MySQL, Apache Tomcat, Maven

- Developed a web-based system for managing pharmacy medicines and inventory.
- Implemented medicine, stock, customer, and transaction management.
- Used CRUD operations, JDBC, and session management.
- Integrated MySQL for storing and managing pharmacy data.
- Deployed the application using Apache Tomcat and Maven.

Aura Travel – Frontend Platform Sept 2026

Technologies: React.js, JavaScript, HTML5, CSS3, REST APIs, Vercel

- Built a responsive user interface using React.js and JavaScript with modular component structures.
- Deployed the application live on Vercel with automated Git pipelines for version updates.
- Managed dynamic application state for user configurations, searches, and interactive layouts.
- Integrated third-party REST APIs using asynchronous JavaScript fetch requests.

Experience

Tap Academy Apr 2026 – Present

Full Stack Web Development Intern

- Applied Core Java concepts including OOP, Collections, Multithreading, and Interfaces through hands-on coding exercises.
- Solved daily coding challenges to strengthen problem-solving and logical thinking skills.
- Developed responsive and interactive web pages using HTML, CSS, and JavaScript.
- Completed real-world assignments and project tasks following industry-standard development practices.
- Built, tested, and deployed web applications as part of full-stack development training.

Achievements

- Secured **1st Place** in ByteHunt Freshers Coding Competition.
- Received the **NCC Best Cadet Award** for leadership, discipline, and performance.

Education

MCA 2024 – 2026
KLE Technological University Dr. M. S. Sheshgiri Campus, Belagavi *CGPA: 9.13*

B.Sc. 2019 – 2022
Government First Grade College, Dharwad *72.21%*
